

## New: Retrofit for SPX Plenty Filter Elements

### Introducing Pall's 'direct replacement' filter technology for users of SPX Plenty filters for general industrial applications

Pall's new retrofit products allow users of other manufacturers' elements to benefit from Pall technology without the need to replace the existing housing/vessel. Pall retrofit products are direct replacements for existing elements, offering the performance and value you have come to expect from Pall.

#### Advantages of Pall Technology

Pall's filter media and element designs bring together industry leading technologies and advanced manufacturing processes to deliver unsurpassed performance and value in each and every element.

**Pall Retrofit p/n: PRPF012PP554S0250N**

**Replaces: SPX Plenty p/n: FM-P-4554V**

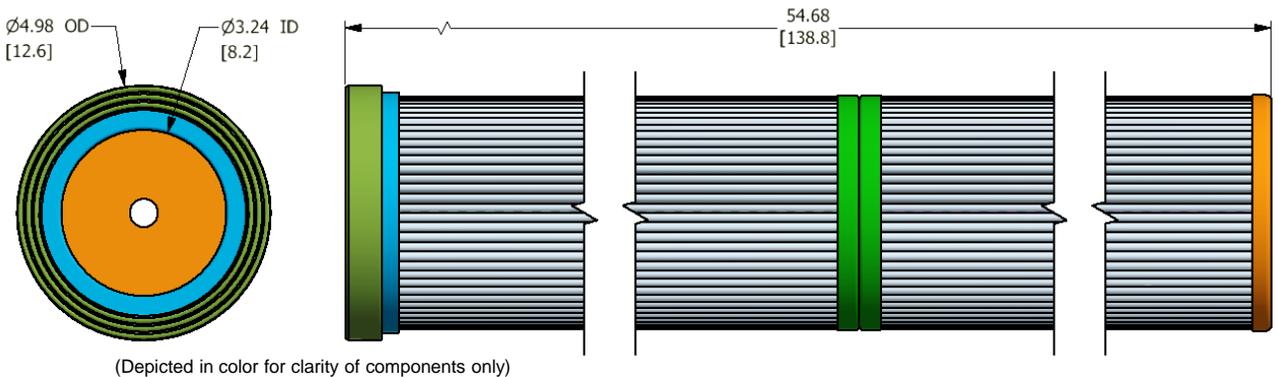

#### Specifications:

- Greater Surface Area means Longer Service Life
- Out-to-In Flow Direction
- Pleated Medium: Polyester
- Hardware: Nylon, Galvanneal
- Core: 304 Stainless Steel Core
- Flat Gasket: Nitrile
- Max Operating Differential Pressure: 30 psid (2.0 bar)
- Max Operating Temperature: 180°F (82°C)

#### Global Presence – Local Support

Pall is a global company with offices in Asia, Americas, Europe, and the Middle East. This global presence gives us the ability to provide local commercial or technical support whenever or wherever there is a customer need.
