

Pall Filters

GE Aviation Engine Filtration Products

Improve Fluid Cleanliness | Reduce Costs

By providing the highest level of engine protection available, Pall fuel and lubrication filter elements keep your engines flying and reduce your costs.

As the industry leader in filtration, Pall has the largest and broadest portfolio of OEM approved filter products.

The wide range of GE engines are used by operators around the globe.

Pall has been involved right from the original filter design through to testing, certification and series production. In partnership with Satair, they continue to support the GE engines in-service today.
