Boeing 737 Series Aircraft Filtration Products

Pall Aerospace manufacture an extensive range of filters, manifolds, housings and associated equipment for commercial aircraft applications.

'Pall' Aerospace is the preferred supplier of many filtration products to the commercial and military aircraft industry.

Component properties such as improved system cleanliness, reduced wear of system components and longer effective service life emphasises the qualified effort, which goes into every product manufactured by Pall Aerospace.

Pall Aerospace products are distributed via Satair in Europe, Africa, The Middle East, The Far East and Pacific Rim, North and South America – vendor codes: U0088, 01414, 18350, 60047, 10989, CO202 and F6951.

Satair are pleased to announce the availability of Pall filter elements and many assemblies and spare parts for the Boeing 737 series of airframes from stock for immediate delivery.
