

Airbus A380 Cabin Air Filters

Airbus Approved.

Parts Catalogue Listed.

Developed in close collaboration with Airbus, Pall **PUREair** filters offer medical-grade cabin air filtration solutions that enhance the onboard experience for your passengers and crew. Pall *PUREair* filters have undergone comprehensive laboratory testing, qualification and validation to ensure they meet all of Airbus's cabin air standards.

With over 80 years of safeguarding critical aircraft assets, Pall has consistently led the way in Cabin Air Quality. Pall has been the OEM supplier for the A380 platform since its selection in 2003, providing all Cabin Air Filters and Housings to the Airbus A380 aircraft. Choose a partner with the pedigree and performance you can trust!

PUREair HEPA Performance:

- **Airbus Approved fit:** Pall are direct fit for Airbus A320, A330, A340, A380 and the A350
- **Independent laboratory testing from a partner you can trust:** Pall cabin air filters have been tested in laboratory conditions for removing bacteria and viruses; providing greater than 99.99% removal efficiency
- **Microbial capture performance:** Captures dust, pollen, smoke, allergens as well as other airborne particulates
