CFM56 Engine All Series

-2, -3, -5, -7

Improve Fluid Cleanliness | Reduce Costs

The CFM56 engine is the workhorse behind some of the largest aircraft fleets in the world – for a good reason: power, reliability, and design are all industry leading for existing single aisle aircraft.

As the industry leader in filtration, Pall has the largest and broadest portfolio of OEM approved filter products.

As an OEM partner with all commercial jet engine manufacturers Pall worked in close cooperation on the original design specifications, testing, and the continuing operation of the power plant.

Simply put – Pall filters provide the highest level of engine protection available. The best protection means fewer delays, cancellations, and unplanned maintenance for your organization.
