

Use of Natural Latex

This statement is intended to provide information regarding the use of natural latex rubber in Pall Corporation disposable pharmaceutical-grade filters, tangential flow filtration (TFF) cassettes, and biotechnology single-use systems (SUS).

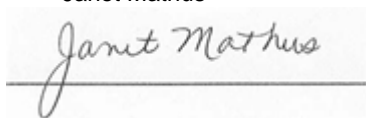

Please be aware that Pall Corporation does not knowingly employ materials which are constructed directly from natural rubber latex. Also note that Pall Corporation does not test final product(s) for the absence of specific compounds related to natural rubber latex allergies.

Please do not hesitate to contact dossieradmin@pall.com should you have any additional questions on this subject.

Please check the Pall website regularly for changes or updates. This statement is correct at the time of preparation, however, customers should routinely consult the Pall Corporation website for changes or updates. All products shall be used in accordance with the Instructions for Use (IFU).

Prepared by Pall Quality Assurance and Regulatory Affairs for Biotechnology

Revision Number: 1.1
Date of Issue: August 11, 2022
Author: Janet Mathus
Signature:

A handwritten signature in cursive script that reads "Janet Mathus". The signature is written in black ink on a light-colored background and is positioned above a horizontal line.
