Where to Locate Regulatory Documentation for Allegro™ Single-Use Filling Needles

Following Voice of the Customer (VOC) feedback, Pall has moved to the Regulatory Dossier approach to improve the method of delivery for technical information. As a consequence, the Allegro Single-Use Filling Needles validation guide (Pall document reference USTR 2837) has been archived, and the content has been updated and converted into a Regulatory Dossier containing individual documents covering specific areas of interest.

These new documents can be found on the [AcceleratorSM Regulatory Dossier](#) portal, using the comprehensive search functionality.
