

Improving your plant productivity

Pall are hosting a series of **Lunch&Learn** sessions during Achema, June 11-15, 2018, the topics are:

- **Filtration improvement without CAPEX**
- **Rental Equipment and Service**
- **Why has Pall many filter media types?**
- **Improve filtration efficiency**
- **How to increase filter life**

Each session is 30 minutes duration with complimentary lunch provided. **Presentations are held in meeting rooms #69 & #70 in Hall 3C** (for directions please see map on the back page).

Lunch&Learn topics:

Filtration improvement without CAPEX (12:30, every day, Monday 11th - Friday 15th)

With Pall-Fit retrofit elements, benefit from Pall technologies without the need to replace your existing housings.

Rental Equipment and Service (13:30, every day, Monday 11th - Friday 15th)

Improve quality and reliability - Quickly install Pall's unique filter/coalescer rental skid to meet the plants specs and to help extend budgets.

Why has Pall many filter media types? (11:30, Monday 11th, Tuesday 12th, Friday 15th)

What filter media is right for the optimization of your process?

Improve filtration efficiency (11:30, Thursday 14th)

High performance filtration with integrated fluid and filter condition monitoring for continuous monitoring of fluid condition and filter performance.

Plant cost reduction by increasing the filter life with the new pleating technology (11:30, Wednesday 13th)

The new Ultipleat Plus metal candle.
