

Verification Certificate concerning the applicability of Filter media for the processing of organic products

Pall Filtersystems GmbH
Planiger Straße 137
55543 Bad Kreuznach
Nr. DE-60827-2025-01-EN

is subject to the surveillance and regular verification by
Prüfinstitut LACON GmbH, Offenburg

Last verification audit conducted on 02.07.2024

The following articles are meeting the requirements
of EU Organic Regulation in the current version concerning filter media and are suitable for the
processing of organic wine, organic fruit wine, organic fruit juice, organic beer or liquid plant-based
organic food

Seitz® K Series, SUPRApak™ Plus, SUPRADisc™ II, Filter Cartridges:
Supor® Beverage Filter Cartridges – SBK and SBB Types, MEMBRAcart XP, PREcart PP II, FUENTE II
according to annex

This verification certificate is based on the results of the above stated verification audit and a
documentary audit from 07.03.2025.

It is not linked to any particular batch and does not state any quality characteristics of the respective
products. Filter media are not defined as certifiable products in the scope of the organic regulation
(EC) hence they are classified as additives. The EC logo for organic products or any other national
emblem are not to be used in relation with the stated products.

This verification certificate is valid until the next verification audit but longest until the 28.08.2027.
Its validity ceases automatically in case of termination of the verification mandate.

Offenburg, 07.03.2025
