

Verification Certificate concerning the applicability of Filter media for the processing of organic products

Pall Filtersystems GmbH
Planiger Straße 137
55543 Bad Kreuznach

Nr. DE-60827-2021-01-EN

is subject to the surveillance and regular verification by
Prüfinstitut LACON GmbH, Offenburg

Last verification audit conducted on 29.06.2021

The following articles are meeting the requirements of EU Organic Regulation in the current version concerning filter media and are suitable for the processing of organic wine, organic fruit wine, organic fruit juice or organic beer

**Seitz® K Series, SUPRApak™ Plus, SUPRADisc™ II,
Supor® Beverage Filter Cartridges – SBB Types,
Supor® Beverage Filter Cartridges – SBK Types
PREcart PP II Filter Cartridges**

according to annex

This verification certificate is based on the results of the above stated verification audit. It is not linked to any particular batch and does not state any quality characteristics of the respective products. Filter media are not defined as certifiable products in the scope of the organic regulation (EC) hence they are classified as additives. The EC logo for organic products or any other national emblem are not to be used in relation with the stated products.

This verification certificate is valid until the next verification audit but longest until the 04.08.2024. Its validity ceases automatically in case of termination of the verification mandate.

Offenburg, 04.08.2021
