

New: Pall Retrofit for 3M High Flow Filters

Introducing Pall's 'direct replacement' filter technology for users of 3M High Flow Series elements

Pall's new retrofit products allow users of other manufacturers' elements to benefit from Pall technology without the need to replace the existing housing/vessel. Pall retrofit products are direct replacements for existing elements, offering the performance and value you have come to expect from Pall.

Advantages of Pall Technology

Pall's filter media and element designs bring together industry leading technologies and advanced manufacturing processes to deliver unsurpassed performance and value in each and every element.
